MANAGEMENT IS NOW CERTIFIED BY SAP**

## POWERFUL AND FLEXIBLE INTEGRATION SOLUTIONS

Bimser Çözüm, a software leader in process optimization and systems improvement, has achieved certified integration for its eBA Document and Workflow Management SysRel 6 platform with the SAP NetWeaver® technology platform. The eBA solution extends SAP® business applications with powerful ECM capabilities, including document management, electronic workflow, record management and archiving. After a rigorous testing process, eBA Document and Workflow Management SysRel 6 has been certified to integrate with SAP NetWeaver.

With this eBA solution you can:

**Increase process efficiency, minimize database growth and improve systems performance** by storing, managing and retrieving SAP and non-SAP documents and content across transactions and SAP applications with eBA Document Management.

**Increase productivity and save money** by automating manual or inefficient process through the creation of powerful electronic workflows that smoothly interact with your SAP data using eBA Workflow.

**Reduce storage costs** by digitizing paper files and electronically integrating this unstructured content with your business processes with eBA Capture.

**Reduce legal risk** through auditable content control and retention with eBA Records Management.

**Visualize your process performance** through fast and simplified analysis of data using eBA Dashboard.
